Our Value Proposition

We analyze all issues within their ecosystems. Such ecosystems have their elements (investments, assets, initiatives) filtered through the formulas of qualitative and quantitative value, within the pervasive dynamic landscape of business & IT constantly disrupted by innovation. Such landscape is furthermore filtered through the context within which it plays, and the significance it will hold over time.

EXCELLENCE IN IT
MANEUVERING IN ALL ENVIRONMENTS

Learn methods to avoid the pitfalls encountered by even the best consulting teams, when faced with complex projects and high risks. The valuation model can be used to anchor progress and demonstrate long-term success.

MASTER THE ECOSYSTEM OF
SUSTAINABLE CYBERSECURITY

Learn how to advance your cybersecurity initiatives, in a manner that shares the responsibility throughout the enterprise, reduces the 'request for funding battle' every year, and creates a culture of dynamic prevention and detection.

END-TO-END
VALUE MANAGEMENT

Discover the power of utilizing proven benefits realization and valuation formulas in ALL areas of business and IT. Learn how to turn around initiatives, programs, and expenditures into powerful investments that yield real profit.

PEAK PERFORMANCE IN PORTFOLIO MANAGEMENT
CONQUER THE RESOURCE-CONSTRAINS BATTLE

Discover the power of true heat maps, when developed within the framework of dynamic value and contextual significance. Develop a synchronous and non-wavering view of the CxO portfolio at all times, reducing complexity and cost.

EFFECTIVE ORANIZATIONAL CHANGE MANAGEMENT
CREATE & LEVERAGE A POSITIVE CULTURE IN THE ENTERPRISE

Discover how disruptive technologies and innovation can be managed in concert with the culture, the appetite, and the tolerance levels of the organization. Execute with speed and transformative outcomes, while maximizing talent management.

COMING BACK FROM THE ASHES
RESTORE THE TRUST BETWEEN BUSINESS & IT

Nothing is completely irreconcilable at this level. Come and explore ways to re-build the bridge between business/executives and IT, and walk away with a plan of action that can propel your organization towards fulfilling its initiatives.

YIELDING FRUIT - Advanced ANALYTICS
THE POWER OF BUSINESS INTELLIGENCE

Learn how to develop intelligence-driven analytics plans aligned with business objectives; to have the "correct" toolset for your organization. Have the CxO master BI capabilities and drive business operations accordingly.

BEING ON THE RIGHT TRACK
SALES & BUSINESS DEVELOPMENT CALIBRATION

Accurately deliver an impactful message about your products or services, to executives that have very little time to dedicate to vendors of all types. Stand out from the competition by utilizing simple techniques that will make you memorable to potential clients.

PROFITING FROM DISRUPTIONS IN THE LANDSCAPE
PROGRAMMATIC CHANGE MANAGEMENT EXCELLENCE

Maximize the impact of change management in programs, by developing a proactive, organizationally-sensitive methodology that rides on the wave of necessary tasks, to create long-lasting efficiencies in the organization.

GOVERNMENT – COMMERCIAL – NON-PROFIT
