VPs

PMs, PgMs

SMEs

### PORTFOLIO

- Modular units tailored to contracting companies prior to engaging in outsourcing, and post-engagement
- Modular units tailored to outsourced teams prior to signing a contract, and once they have accepted the work

### ECOSYSTEM ADVANTAGE

- Our proven results are based on merging all silos and treating mitigation and remediation consultation and workshops within an ecosystem framework.
- Our success is visible through the speed and accuracy of the results

## OUTCOMES & RESOLUTIONS TO OUTSOURCING CHALLENGES

### BEFORE

- post-contract processes and decision rights not understood
- poor mutual understanding of the contract
- loss of key talent and/or poor knowledge transfer
- end-user resistance to adopting new methods
- culture clash between the client and service provider
- changes don't last
- lack of compliance
- more...

### results

### AFTER

- clarity & precision of expectations, understandings and outcomes
- requirements and agreements deconstructed and evaluated
- on-the-go consistent and continual knowledge transfer
- organization and change management tailored practices
- overdrive on communication and methodology for transparency
- roadmaps for adoption of changes
- embedded compliance at all stages
- more...

### BEFORE

- little or no support from client leaders receiving services
- client retained team not in place or too small
- client retained team lacks required skills
- inability to meet pent-up demand for services
- language barrier
- time-zone ineffectiveness
- poor quality
- lack of proper cybersecurity practices
- more...

### results

### AFTER

- Support structure developed, practiced, and enforced
- mapping of capabilities to task and measured outcomes
- skills and experience correlated with expectations and results
- measured anticipated growth and demand for services
- methodologies practiced for elimination of language barrier
- time-zone maximized for effectiveness
- quality management practices included
- cybersecurity practices embedded
- more...
